

I respectfully request that the FCC not lessen the Indiana "Do not Call Rule". I used to receive 3 to 4 phone calls a day that were very annoying because they would interrupt my sleep(I would have to leave my phone off the hook, dinner time(just wouldn't answer the phone)and other activities.The Indiana Law has been a great thing. Now I have control over the phone-that I pay for. Now I don't have to leave the phone hook, or not answer it at meals, because I know it is someone whom I want to talk to. Thank you for your consideration of this matter.
